

METEKA Clean Hands Disinfectant and Soap Dispenser

Clean Hands
Disinfectant and
Soap Dispenser

Touchless Disinfectant and Soap Dispenser

- Can be filled with conventional 500 ml or 1.000 ml bottles
- Hygienic disposable roller pump
- Improved compliance with hand hygiene

THE ADVANTAGES AT A GLANCE

Fully automated and touchless

- Fully automated and touchless dispenser made from hard-wearing plastic
- Four adjustable dosage quantities
- Hygienic disposable pump: easy to change the pump together with the silicone tubing

Suitability

- Suitable for disinfectants, liquid soaps, gels and lotions – individual labeling identifies the content of the dispenser

Configuration

- Integrated dripping pan
- More than 30,000 usages per set of batteries – no external power supply required

Flexible and easy

- Flexible use
- Easy to operate and clean
- Can be adjusted to work with all common bottles which are on the market
- Quick and easy bottle change
- Simple to mount on walls and set up on flat surfaces

PROVEN TECHNOLOGY

TESTED SYSTEM SOLUTION

MAXIMUM SAFETY

METEKA

gives germs no chance

One touch can be decisive ...

Given that hands can be hugely responsible for the spreading of pathogens, proper hand hygiene is one of the most important measures for preventing infections.

One of the recommendations from the Robert Koch Institute on hand hygiene¹ is that **touchless dispensers** are used in order to prevent contamination.

Furthermore, dispensing systems need to be **easy to access and operate** so that they are used regularly.

Due to its flexible and practical features, it can be used in many areas:

- in treatment rooms
- in laboratories
- in doctors' surgeries
- in patients' rooms
- in doctors' and nurses' rooms
- in toilet areas
- in ambulances and patient transport ambulances
- when using security interlocks
- in utility areas
- in cooking areas
- in all hygiene-relevant areas of industry and research

Delivery contents:

- sticker kit for individual labeling
- wall mounting plate
- fixing material
- dripping pan
- replacement roller pump
- installation and operating manual
- key to open the dispenser
- 4 x 1,5V AA-batteries
